Wall charger LDNIO A2313C, USB + USB-C, PD + QC 3.0, 20W (wh

LDNIO A2313C wall charger

Power up to 2 devices simultaneously and enjoy fast charging. The LDNIO A2313C charger is equipped with 2 ports (USB and USB-C) and supports protocols such as PD and QC3.0. It boasts up to 18W of power and is extremely durable, yet lightweight and compact.

Fast charging

The charger's USB-C port supports PD fast charging. This means that it only takes about 30 minutes to charge your phone to 70%! The USB port, meanwhile, supports QC3.0 fast charging with 18W of power. No more waiting indefinitely for your devices to be ready to serve you again! In addition, the charger intelligently detects the connected equipment and adjusts its operation to ensure that it charges as quickly as possible.

2 available ports

When you choose the LDNIO A2313C charger, you have 2 ports at your disposal - USB and USB-C. So you can seamlessly charge 2 devices at the same time. No more waiting for one device to be charged before you plug in another! Now you can, for example, restore power to your smartphone and tablet at the same time.

For the sake of safety

The charger is equipped with an advanced safety system that protects it from overheating, short circuit, overvoltage and overcharging, among other things. What's more, high-quality PC plastic was used to make the product, which is not only durable, but also fire-resistant. At the same time, the device is hardly susceptible to damage, and thanks to its aluminum and copper components, it efficiently dissipates heat.

Take it on vacation

The product is also distinguished by its lightweight, portable design, so you can easily use it not only at home, but also at work or on vacation. You can easily fit it in your purse or backpack! The charger also supports 100-240V, so you can use it in many different countries around the world without worry.
