### LDNIO A2318C wall charger

Enjoy fast charging of up to 2 devices simultaneously. The charger offers 2 ports (USB, USB-C) and supports protocols such as PD (20W) and QC3.0 (18W). It is also extremely lightweight and compact - it will work well not only at home, but also when traveling. It also stands out for its wide compatibility and robust, durable design. At the same time, it provides unparalleled safety in use.

### Fast charging

The charger's USB-C port supports PD 20W fast charging. Using it, you can charge an iPhone 13 up to 65% in about 30 minutes. You also get a USB port that supports QC3.0 fast charging with 18W of power. What's more, thanks to Turbo Power Engine technology, the charger intelligently detects the connected device and adjusts its operation to restore its power as quickly as possible.

### Extremely portable

The charger is distinguished by its incredibly lightweight, compact design, so you can always have it at hand. You can easily fit it in your backpack, purse or even pocket. There is also nothing to prevent you from using it abroad. The A2318C is compatible with 100-240V, so it will work well in many countries around the world.

### Charge 2 devices simultaneously

Fast charging of 2 devices at the same time? Now it's possible! The charger offers 2 ports (USB-C and USB), so you can connect 2 devices to it at the same time. Say goodbye to having to wait for one to be charged before plugging in another! What's more, the product is compatible with tablets and smartphones from many well-known brands such as Apple, Samsung and Xiaomi, for example.

#### Improved design

The charger was created from fire-resistant PC plastic, making it extremely durable and not very susceptible to damage. It has also been equipped with copper and aluminum components that guarantee efficient heat dissipation. Don't be afraid that the product will overheat! The charger is also protected against short circuits, among other things.
