

Temperature and humidity sensor Sonoff THS01, RJ11

Ref: 6920075777802

Temperature and humidity sensor Sonoff THS01, RJ11

Temperature and humidity sensor Sonoff THS01, RJ11

Sonoff SI7021 can be used with TH Elite and TH Origin to detect and measure temperature and humidity. It is distinguished by its high build quality, ultra-fast response, and the humidity measurement range is 0 to 100% RH. The device also guarantees immunity to interference. The cable length is 50 cm, and the operating temperature is -40°C~ +85°C. In addition, the sensor connector has been upgraded to RJ11, supporting hot plug, making the connection more stable and reliable.

Manufacturer

Sonoff

Model

THS01

Color

black

Cable length

50 cm

Connector type

RJ11 4P4C

Working temperature

-40°C~ +85°C

Humidity measurement range

0-100% RH
