

Temperature and humidity sensor Sonoff Si7021, Jack (TH10, T

Ref: 6920080000001

Temperature and humidity sensor Sonoff Si7021, Jack (TH10, T

Temperature and humidity sensor Sonoff Si7021, Jack (TH10, TH16)

Sonoff SI7021 is a temperature and humidity sensor / jack sensor, for the TH16/TH10 smart switch and S22 socket. It allows to measure temperature from -40 to +85°C with measurement resolution of 0.1°C, measurement accuracy is +/- 0.5°C. Humidity is measured in the range 0...99.9 %RH with a resolution of 0.1% RH, while the accuracy is +/- 3% RH (at 25°C). The device guarantees fast response and resistance to interference.

Model

SI7021

Power supply

2,2 V do 3,6 V

Adjustable resolution

9-12

Working temperature

-40 ° C / + 85 ° C

Working humidity

0 % do 100% RH

Output cable
Jack
Cable length
50 cm
Weight
26 g

Preço:

€ 4.00

Casa inteligente, Intelligent Home Control
