Ref: 6971308400639

inFace SPA Body Massager Brush CB-11D (pink)

The inFace Massager CB-11D body massage brush provides a relaxing massage and gently exfoliates the skin. It comes with 4 tips, so you can use it as you are comfortable. What's more, it offers 3-stage speed adjustment and is IPX7 water resistant.

Effective cleansing

Swap standard bath sponges for the inFace SPA Massager. The brush head consists of two parts, and each part rotates in a different direction, providing a pleasant massage and effectively cleansing the skin. In addition, it has a smart chip that will interrupt the device when it detects too much pressure on the skin. This makes using the CB-11D completely safe.

4 heads included

In the package you will find 4 heads that you can use freely. The gentle cleansing washer will cleanse your skin of impurities and help create foam. The rotating silicone brush provides a pleasant back and neck massage, while the exfoliation brush will remove dead skin. And the DuPont bristle head will cleanse the skin and help treat acne on the back.

Customize its action to suit your needs

The inFace SPA Body Massager Brush offers 3 speed levels, so you can customize its action to your needs. The lowest level gently

cleanses the skin, while the medium level is perfect for everyday use, and the highest level provides thorough cleansing.

Thoughtful design

The inFace CB-11D is made of FDA silicone, making it safe for your skin. What's more, it has IPX7 splash resistance, so you can use it freely without worrying about damaging the product. In addition, the 3D design of the head makes the silicone tabs fit snugly against the skin for an even better cleaning effect.

With attention to detail

The inFace body massage brush is equipped with a 1,200 mAh rechargeable battery, which translates into about 60-120 minutes of use. In addition, the product supports magnetic charging - you can easily remove the battery and renew its energy. After about 2 h, the brush will be ready to work again. In addition, the included bracket will allow you to attach the device to the wall, so you can have it at hand. The brush will also serve as a bathroom decoration and will not take up much space in the shower or over the bathtub.
