

4-in-1 Blackhead Remover & Thermal Aqua Peel Facial Panoramami

Ref: 6971308400820

4-in-1 Blackhead Remover & Thermal Aqua Peel Facial Panoramami

InFace 4-in-1 Thermal Aqua Peel Facial Panoramic CF-07E blackheads extractor with hydromassage (white)

The inFace product will allow you to thoroughly cleanse your face. The device removes sebum and dead skin, allows you to open pores and improves metabolism. As a result, the skin is radiant and hydrated. The CF-07E uses a temperature of 40°C and has 2 water tanks: clean and dirty. Moreover, it stands out for its efficient operation and allows you to customize its performance. As a result, it will work well for different skin types.

Prepare your face for skin care treatments

Proper facial care begins with thorough cleansing. The 4-in-1 device from inFace, through micro water particles, vacuum and suction nozzle, effectively removes impurities and deep cleanses pores. In addition, it promotes the absorption of nutrients.

Allows you to open your pores

The inFace CF-07E uses 40°C water to open pores and prepare the skin for further skin care steps. What's more, it has a built-in heating module, and the water temperature is controlled by a dedicated switch. So you don't have to worry about damaging your epidermis.

2 water tanks

The product has 2 water tanks, which prevents secondary contamination. The capacity of each is 30 ml. What's more, the thoughtful design ensures hygiene and safety of use.

Customize its operation to suit your needs

The inFace device will work well for different skin types. It offers adjustable 3 levels of suction, so everyone will choose something for themselves. The lowest level is for dry and sensitive skin, while the medium level is for combination skin. On the other hand, the highest level of suction will work for oily skin, thoroughly cleansing the face. All you have to do is press the power button.

3 tips included

The kit comes with 3 tips made of skin-friendly material, so they won't cause irritation. The first one will work well for cleansing the nose and its surroundings. It effectively removes even the most stubborn blackheads. The T-zone head will allow you to get rid of excess sebum and blackheads, while the round tip is designed for larger areas. With its help you will remove impurities and restore your skin to a youthful appearance.

Thoughtful design

The device is equipped with a powerful motor, which translates into efficient work. The lightweight and handy design makes it comfortable to use and easy to store, while the rechargeable battery guarantees up to 3600 minutes of use on a single charge. What's more, a USB-C cable is included for easy charging. After about 2 hours, the product will be ready to continue working.
