Screwdriver set JIMI Home JM-GNT60, 42 pcs

Ref: 6970211471026

JIMI Home JM-GNT60 screwdriver set, 42 items

JIMI HOME JM-GNT60 screwdriver set is a versatile set for everyone! The set includes 42 screwdrivers, which were created from high-quality S2 steel. The product also offers many other items, i.e. tweezers, a card key or an undermining tool, which will help during the work. All the parts have been placed in a practical case, which will facilitate transportation.

High-quality workmanship

Durable and high-quality materials have been used to make all the parts of the kit, which guarantee the highest level of safety and comfort during use. The tips (except H2.5) have been made of special S2 steel alloy, which is characterized by incredible durability. What's more, each of them has been marked, which will make it easier to find the right tip.

Tailored to every situation

In the set you will find as many as 42 bits in 12 types, including flat, Phillips, triangular or Y-shaped screwdrivers. All the items included in the set will work perfectly in any situation. With them you can, for example, repair a smartphone, digital camera or glasses.

Convenient storage

The practical case made of aluminum alloy allows you to store all the parts in one place. It is fully resistant to corrosion. In addition, it

has been coated with anodes so that it will not slip even from a sweaty hand. In addition, inside the case there is a special storage compartment for screws to avoid losing them during disassembly. The small and lightweight design does not take up much space, so you can take the set with you wherever you want.

Even more convenience

The kit comes with two magnetic mats that are sure to make your work easier. You no longer have to waste time searching for small parts, i.e. screws that you dropped on the ground. In addition, boxes have been placed on the mat to help you categorize parts. What's more, the magnetic absorption makes the bits sit stably in the holder.
