

Automatic food dispenser PetWant F11-C

Automatic food dispenser PetWant F11-C

Ref: 5907489609654

PetWant F11-C automatic pet food dispenser

Take care of your pet's healthy eating habits. The PetWant F11-C automatic food dispenser is suitable for a variety of food types and has a 4.5-liter reservoir. The clever design keeps the food fresh, and the app-based control increases the freedom of use. What's more, it has a built-in camera and dual power source, and safe materials were used in its production.

Capacious tank

The PetWant F11-C automatic food dispenser has a 4.5-liter tank, so it can hold up to 2.5 kg of food and will last your pet for about 30 days. As a result, you can go on vacation and be sure that your cat will get as much food as needed.

Always fresh food

Are you worried that the food stored in the dispenser will spoil? Don't be! PetWant F11-C features an airtight design, so no air will get into the food. What's more, the container with desiccant prevents food from getting moldy.

Emergency power supply

With PetWant, your pet will have the right amount of food regardless of the situation. You'll find an adapter included that powers the device. If there is no access to a power source, the dispenser will automatically switch to emergency power. However, batteries are not

included and must be purchased separately.

Stay in touch with your pet

Want to know what's going on with your furry friend in your absence? Now it's possible! The PetWant automatic dispenser has a built-in camera and allows you to talk - you can speak to your pet and give him commands remotely.

Remote control

For even more convenience, you can control the food dispenser from the app. With its help you will program the time of feeding and take care of your pet's healthy habits. What's more, you'll receive notifications if there's no food in the dispenser or a possible error. You can also grant access to the device to other household members.

Thoughtful design

The dispenser is equipped with a powerful motor, which is responsible for the smooth operation of the device. What's more, it has an infrared sensor that will detect when the inlet is clogged, and a red indicator will inform you of the error.

You will easily take care of its cleanliness

Keeping the dispenser clean will not be a problem for you. You will quickly and conveniently disassemble the device and clean its components. What's more, made of 304 stainless steel, the bowl is safe for health.
