Acefast T6 in-ear headphones (grey)

The Acefast T6 waterproof headphones with Bluetooth 5.0 technology will make listening to music even more enjoyable! There is a digital screen built into the earphone case that shows the remaining battery level. The headphones are equipped with 4 microphones and have a noise cancellation function, so the quality of your calls will be perfect! You can operate the device easily and conveniently thanks to the touch sensors. Efficiently answer a call or change a song without reaching for the phone!

High level of quality

The headphones support fast charging technology. The battery capacity of the case is 500 mAh, so the headphones can be charged four times before you have to plug in the case itself for charging. The headphones allow 4 h of music listening or 3 h of phone calls at 70% volume without using the case. The product is equipped with a USB-C port. There are 2 modes to choose from: Stereo and Single. The T6 features a high level of sync, making it ideal for gaming enthusiasts. Acefast headphones will enable smooth gaming without interference - Bluetooth 5.0 connection guarantees perfect transmission at a distance of up to 10 meters.

Thoughtful design

T6 headphones are not only functional, but also very stylish! The silicone case looks good and protects the headphones very well. The uniformity of color adds to the product's aesthetic value. An additional advantage is the small size. When designing the headphones, the

focus was on comfort of use. The ends of the headphones are characterized by exceptional softness, so you can use them for a long time without experiencing discomfort. In addition, you can use them in any conditions, even in the rain or during an intense workout, as they have IPX4 protection!
