Induction charger Qi Joyroom S-IW003S 2.5W for Apple Watch 0

Joyroom Qi inductive charger S-IW003S 2.5W for Apple Watch

Enjoy fast and convenient charging of your Apple Watch. The Joyroom S-IW003S inductive charger provides up to 2.5W of power and stands out with a magnetic force of 2,800GS. As a result, it can provide the smartwatch with the necessary stability. It is compatible with Apple Watches from the 1st to the 9th generation, and features impressive durability.

Wide compatibility - fast charging

The cable is compatible with Apple Watches of as many as 9 generations - from the 1st to the 9th. This means that it allows you to seamlessly charge a variety of devices. What's more, it won't take long to restore power to your smartwatch. For example, it takes about 2.5 hours to charge an Apple Watch 6 to 100% using the cable.

Safety of use

Bet on proven solutions and choose a cable that will ensure your devices not only fast, but also safe charging. Model S-IW003S is equipped with protection against overvoltage, overcurrent and overheating, among other things. So you don't have to worry about damaging it or worry about the condition of your smartwatch's battery.

High magnetic force

The charger is also distinguished by an impressive magnetic force of up to 2,800GS. Thanks to this, it can provide the Apple Watch with the necessary stability - don't worry about the smartwatch shifting or falling off. In addition, thanks to the technologies used, the product guarantees fast and efficient charging.

Robust design

Bet on the highest quality of construction. The charger is equipped with a stainless steel housing, and its cable was created from durable TPE plastic. This makes it extremely durable and resistant to damage. What's more, the tin-plated copper cable is characterized by high durability and guarantees stable, efficient charging.
