Gaming set mouse + mouse pad Havit GAMENOTE MS1007CM
Gaming set mouse + mouse pad Havit GAMENOTE MS1007CM

2-in-1 gaming mouse and mousepad set

A practical gaming set consisting of a wired mouse and a mousepad. The mouse has been carefully shaped and made of high-quality materials, which prevents hand fatigue during long hours of gaming. In addition, equipped with a sensitive optical sensor, it provides extraordinary precision during arcade games. The wide DPI adjustment range (up to 6400DPI), allows you to adjust its sensitivity to the needs and expectations of even the most demanding gamer.

Stylishly backlit

Thanks to the RGB-type backlighting, the mouse provides illumination of 16 million colours, giving an extraordinary character. You can control the illumination using the keys on the left side of the mouse or via the centre key, you can create the perfect atmosphere for any game.

Gaming mousepad

The gaming pad with its non-slip backing prevents it from moving around your desk uncontrollably. Thanks to the stitched edges, the life span of the mat has been significantly extended, and the surface of the pad, additionally covered with a micro-grid, enables precise mouse movements. The large surface of the mouse pad, allows a wide range of mouse movements. Thanks to the high-quality micro-grid, you can easily and safely roll up the mouse pad and take it with you when travelling. In addition, it allows for precise and
