Blitzwolf Wireless Headphones

The BlitzWolf headphones are designed for active users looking for wireless headphones that are compact and ergonomic. They provide excellent sound and the ability to make phone calls at the highest level.

Bluetooth 5.0 technology

By incorporating Bluetooth V5.0 technology in the headphones, they provide a stable connection without worrying about interference or complete disconnection during use. Phone calls are at an extremely high level, and automatic pairing, allows you to get the headphones up and running even faster.

Thoughtful design

Dual 6 mm drivers allow you to reproduce exceptional and clear sounds, and the high-quality materials used in the production of the headphones, make them resistant to frequent use.

Durable battery

The Blitzwolf headphones are extremely durable. You can use them continuously for up to 4 hours without having to plug in. Using the compact case, you can charge your headphones up to 4 times.

Easy to use

When paired with a particular device, they turn on and off by themselves, making them extremely easy to use. It's important that before you use them for the first time, you remove the protective film from the headphones and put them in the case so that they charge fully. Once the battery is full, the first pairing is possible by taking them out of the case and putting them back in. This will activate them.

Comfortable and ergonomic

Thanks to their ergonomic design, the Blitzwolf headphones are extremely comfortable to use, even if you use them for many hours. Whether you're working out, relaxing or talking on the phone, the Blitzwolf wireless headphones, will work in any situation.
