HDMI to HDMI cable Choetech XHH01, 8K, 2m (black)

Ref: 6971824976281

8K HDMI to HDMI cable Choetech XHH01

Enjoy excellent picture quality when you watch movies, show your friends your vacation photos or play games. The Choetech XHH01 HDMI to HDMI cable supports 8K 60Hz resolution and provides a bandwidth of up to 48Gbps. It also stands out for its wide compatibility and support for Dynamic HDR, 3D and Quick Media Switching. The product also offers several display modes (Mirror, Extend, Game) and is extremely durable.

Excellent image quality

With the XHH01 you will ensure your dream level of immersion and see every detail. The cable allows you to display 8K 60 Hz images, and is also compatible with 4K 120Hz, 2K 144Hz and more. What's more, Dynamic HDR guarantees vivid, natural colors, and the 48Gbps bandwidth ensures fast and stable signal transmission. All this will provide you with an unforgettable experience while watching movies or playing games.

Additional amenities

The cable supports technologies such as Variable Refresh Rate (VRR), Quick Frame Transport (QFT), Quick Media Switching (QMS) and Auto Low Latency Mode (ALLM). As a result, it guarantees incredible smoothness and low latency. This means it will perform perfectly even during extremely dynamic gameplay. The XHH01 also offers support for 3D - now in your own room you'll feel like you're in a movie

theater!

Wide compatibility

This functional cable will be perfect for many applications. XHH01 is characterized by wide compatibility - it works perfectly with most devices equipped with HDMI ports. For example, it works without problems with Samsung and LG TVs, XBOX or PlayStation consoles, as well as with computers, laptops, projectors, monitors and Blu-ray players.

Thoughtful design

Bet on the highest quality workmanship and get a cable that will serve you well for many years. The XHH01 model is equipped with a nylon braid that protects it from damage. It is also resistant to bending and pulling. What's more, the gold-plated connectors are incredibly durable and provide fast, reliable transmission. They also feature extremely low susceptibility to wear and tear.
