TWS BlitzWolf AirAux AA-UM13 headphones, Bluetooth 5.1, IPX4

TWS Blitzwolf AirAux Headphones AA-UM13

Looking for versatile TWS headphones that will allow you to listen to music and talk on the phone comfortably? The Blitzwolf AA-UM13 will be a great choice! They are equipped with large 13mm drivers, so they provide high quality sound, and they also offer a surprisingly long operating time. Bluetooth 5.1 connectivity allows you to enjoy reliable signal transmission, and the ergonomic design guarantees comfort.

Sound at the highest level

Discover your favorite songs in a new and better quality. The AA-UM13 headphones are equipped with dynamic 13mm drivers that guarantee clear, detail-saturated sound and deep, powerful bass. So you can feel like you're at a concert, wherever you are!

Perfect for conversations

Talk on the phone where and when you want. Crowded bus, supermarket or city center - the noise won't bother you anymore! The headphones are equipped with high-quality microphones and support ENC noise reduction. So you can be sure that you and your interlocutor will hear each other perfectly regardless of the conditions!

Bluetooth 5.1

Free yourself from wires and enjoy a premium wireless connection. The AA-UM13 headphones support state-of-the-art Bluetooth 5.1, which guarantees fast, stable transmission and seamless pairing. There's also a special gaming mode that lets you enjoy lower latency. Now you won't be surprised by your opponent anymore!

Created for your convenience

Are you trying to lead an active lifestyle? Now you can listen to music during your workouts without any disturbance! AA-UM13 headphones are incredibly comfortable and lightweight. They fit perfectly in the ears and do not fall out of them - even during intense exercise. They are also distinguished by IPX4 water resistance - sweat, rain or accidental splashing is not a major threat to them.

Working time of up to 5 hours

Don't worry that your headphones will drain quickly. The AA-UM13 allow you to play music for about 5 hours. Their talk time is about 3 hours, and standby time reaches up to 40 hours. In addition, the included case is equipped with a 400mAh rechargeable battery and allows you to charge the headphones about 5 times before you need to plug it in.

Even more convenient operation

Get convenient access to the most important functions of the headphones. You don't even have to reach for your phone! The AA-UM13 have built-in sensitive touchpads, with which you can, for example, stop playback, switch a song, answer the phone or turn on gaming mode. The headphones are also compatible with voice assistant - just long press one of them to activate it.
