Wired earphones Blitzwolf AirAux AA-HE4, 3.5mm jack, 1.2m (b

Blitzwolf AirAux AA-HE4 wired in-ear headphones

Ensure great sound quality while listening to music, playing games or watching movies. The Blitzwolf AirAux AA-HE4 headphones offer dual 8mm drivers so you can enjoy clear, natural sound. They are also distinguished by their durable, rugged design. You can easily connect them to your phone using the 3.5mm AUX connector, and they can be conveniently operated with the remote control integrated into the cable.

Great sound quality

The headphones are distinguished by a frequency response of 20Hz-20kHz and dual dynamic 8mm drivers. As a result, they provide delightful high-fidelity sound. They also let you enjoy strong, deep bass, clear, crisp highs and incredible richness of detail. Choose the AA-HE4 headphones and let yourself be invited to a great musical feast!

Incredibly comfortable

Listen to music for as long as you want - don't worry about fatigue or discomfort. The AA-HE4 headphones are distinguished by their ergonomic design, so they guarantee dreamlike comfort. They fit perfectly in the ears and do not fall out of them, even when you move a lot and exercise. Now your favorite songs can entertain you all day long - at home, at work and at training. At the same time, the headphones look really stylish.

Refined in every detail

The cable of the headphones was created from durable TPE material, so it won't get tangled. It's also incredibly durable. The AA-HE4 is also equipped with a 3.5mm connector made of high-quality materials, which can provide reliable signal transmission and is extremely resistant to wear and tear. What's more, the headphones are very convenient to store and transport - they won't take up too much space.

Built-in remote control

Now you can always have everything you need at your fingertips! The headphones are equipped with a remote control integrated into the cable, which provides convenient access to several key functions. Using it, you can, for example, pause or resume playback, answer or reject an incoming phone call, and adjust the volume.
