Smart Wi-Fi Wall Switch MSS550 EU Meross (HomeKit)

Ref: 0787446926742

Smart Wi-Fi Wall Switch MSS550 EU Meross (HomeKit)

Meross MSS550 smart two-channel light switch (HomeKit)
The smart two-channel physical switch by Meross will allow you to conveniently control the lighting in your home. Control the lights remotely using the app, create schedules, set timers and use the smart scene function. It is capable of handling up to 2 independent light sources. The device is compatible with Apple HomeKit, Amazon Alexa, SmartThings and Google Assistant, so you can also operate it by voice. The product requires a neutral (blue) wire and a mounting box (not included) for installation.

Convenient remote control
The device works not only with the Meross app, but also with Amazon Alexa, Google Assistant, SmartThings and Apple HomeKit. So you can freely control the lighting from anywhere - just reach for your phone! The switch also supports voice control with smart assistants. Now to turn the lights on or off with just a few words - you don't even have to get up from the couch!

Match the lighting to your day
That's not all the MSS550 model has to offer! Using your smartphone, you can easily create a work schedule for your lighting or set a timer. Smart scenes are also at your disposal. As a dual-channel device, it can handle up to 2 independent light sources. Now the light can turn on automatically when you come home from work and turn off when you go to bed - just set the right times!

Designed with the user in mind

The carefully thought-out design of the switch makes it extremely easy and pleasant to use. A special LED indicator not only informs about the status of the device, but will make it easy to find in the dark. Both installation and configuration should not cause you any problem. You can easily use your existing Wi-Fi network for it (it only works with 2.4GHz Wi-Fi) - no need for an additional hub.
