Computer case Darkflash C285 (black)

Ref: 4710343795025

Darkflash C285 computer case

The Darkflash C285 computer case will allow you to assemble a reliable, high-performance computer that you'll enjoy gaming or working on. It offers several ports, including USB 3.0 and USB 2.0, and allows you to mount HDD / SSD drives and up to 9 120mm fans. It is also distinguished by a modern, stylish design - a transparent side panel made of tempered glass allows for interesting visual effects, for example, with RGB backlit components.

The perfect computer for you

Do you dream of a powerful gaming computer? Or maybe you want to create a perfect workstation for yourself? The C285 case will prove itself in almost any situation! It is compatible with ATX, Micro ATX and ITX motherboard standards, and allows you to mount HDD or SSD drives. There is also space for a CPU cooler up to 160mm high and for a graphics card up to 410mm long. There are also 7 slots for expansion cards. Create the optimal configuration for yourself!

Take care of reliable cooling

Demanding graphics programs? Or maybe dynamic gameplay? The C285 case will allow you to assemble a computer that can handle any challenge and will not overheat. It offers space for up to 9 120mm fans or 4 140 mm fans. You can also mount 120mm, 240mm, 280mm or even 360mm water cooling. This way you can easily take care of keeping your computer's temperature at the right level!

Comfort of use

That's not the end of the possibilities - the case has been designed to allow you to work comfortably at your computer. It has been equipped with several useful ports, such as, for example, USB 2.0 and USB 3.0, which will allow you to transfer files in no time. If you often transfer photos or videos between devices, this will be the perfect option for you! There is also a headphone/speaker output, microphone input, as well as Reset and Power buttons.

Modern design

Build yourself a computer that will impress you not only with its performance, but also with its remarkable design. The Darkflash C285 case is equipped with 2 transparent panels, so you can expose selected components in an interesting way. If you decide to use elements with RGB backlighting, for example, fans, you will get an original gaming effect! What's more, dismantling the panels will not cause you any problems - if necessary, you can easily clean the equipment or replace parts.
