

## Filter ND-PL Set PGYTECH (8/16/32/64) for DJI Osmo Action 3

Ref: 6970801339064

Filter ND-PL Set PGYTECH (8/16/32/64) for DJI Osmo Action 3

PGYTECH set of 4 ND-PL filters (8/16/32/64) for DJI Osmo Action 3

Create even more interesting footage and be prepared for varying lighting conditions. Designed with the DJI Osmo Action 3 camera in mind, PGYTECH's ND-PL (8/16/32/64) filters will help you achieve beautiful, clear images and vivid, natural colors. The accessories were created from high-quality SCHOTT optical glass and have been coated with a special coating that protects them from water, grease and scratches.

### Professional ND-PL filters

Now you can easily get stunning results even in difficult lighting conditions. The set includes 4 hybrid ND-PL filters - 8 (3 stops), 16 (4 stops), 32 (5 stops) and 64 (6 stops). Using them, you will avoid unwanted reflections and get beautiful, saturated colors. The accessories allow you to reduce the shutter speed and prevent overexposure, so you can enjoy a vivid, clear image. It is also possible to change the polarizing effect - just rotate the filter.

### Top quality workmanship

The filters use the highest quality optical glass, which has been subjected to multiple grinding and polishing. As a result, it is distinguished by a low refractive index and allows capturing the natural colors of the photographed objects. The accessory is also coated with a special coating that makes it resistant to water, grease and scratches. This means that you can easily keep them in perfect

condition! In addition, the filter frames were created from lightweight yet durable aluminum alloy.
