

Remote control PGYTECH MANTIS RC M1 for digital cameras, GoP

Ref: 6970801338838

Remote control PGYTECH MANTIS RC M1 for digital cameras, GoP

PGYTECH Mantis RC M1 remote control for digital cameras, GoPro and PGYTECH MantisPod 2.0 tripod

Indulge in the convenience of taking videos and photos. The PGYTECH Mantis RC M1 remote control features practical buttons that allow you to access useful functions and manage the operation of your equipment from up to 10 meters away. The product is widely compatible with Sony, Canon, GoPro devices and MantisPod 2.0 tripods. Thanks to a powerful battery, its operating time reaches up to 11 hours.

Enhance your capabilities

Manage the operation of your equipment from up to 10 meters away. The remote control lets you zoom in and out, as well as take a picture and start recording. What's more, it also has indicators that provide access to important information, such as the status of your equipment's connection and battery level. The RC M1 operates with a voltage of 3.7 volts.

Careful craftsmanship

The RC M1 is equipped with a 60 mAh battery, so one charge is enough to use the product for as much as 11 hours. The time it takes for the remote to renew its energy is less than 80 minutes. The RC M1 has a USB-C port so you can conveniently charge it. The remote control can operate even in extreme weather conditions (from 10°C to 45°C). It is made of durable materials such as PC and ABS.

Wide compatibility

The Mantis RC M1 remote control is widely compatible with many popular devices. It will be useful for users of Sony, Canon and GoPro cameras and camcorders. It will also work great with MantisPod 2.0 tripods. Decide on the wireless solution offered by PGYTECH and create exceptional content comfortably!
