

Mini wireless projector BYINTEK P19

Mini wireless projector BYINTEK P19

Ref: 725889899094

BYINTEK P19 wireless mini projector / projector

The BYINTEK P19 projector will allow you to turn almost any place into a movie theater. The device supports 4K resolution and displays an image with a maximum diagonal of 200". It also offers support for 3D, and its brightness reaches 350lm. Vertical and corner keystone correction is also possible, and you can enjoy high-quality sound thanks to 2 built-in 3W speakers. In addition, the projector runs on Android 9.0 and has a built-in rechargeable battery that allows it to work wirelessly.

It will work well in any situation

If you're looking for a versatile projector that will work well in many applications, the BYINTEK P19 will be the right choice. The device allows you to project an image with a diagonal of 30-200" and is distinguished by a range of 0.2-6m. What's more, you can easily set it up on a stand or tripod, for example. An important presentation at work? Cheering on your favorite team together? A movie night with your loved ones? Now you can enjoy high image quality in almost any situation! What's more, the device works surprisingly quietly, and the life of its LED lamp reaches 30,000 hours.

Compatible

Thanks to the several available ports, you can easily connect the devices of your choice to the projector. The product offers such interfaces as HDMI, USB 3.0 and 3.5mm mini jack output, for example. So you can plug in a laptop, tablet, PlayStation 4 console or

additional speakers, as well as play movies from a USB drive. It is also possible to connect a mouse and keyboard to the projector - this way you will make it easier to use.

Great image quality

Comfortably watch movies, play games and view vacation photos. With the P19 projector you won't miss any detail! The device features a resolution of 854x480, but it also supports 4K (via cable). It also uses advanced DLP, HDR 10 and MEMC technologies, so it can provide vivid, detail-saturated images that will delight you with crisp colors. The projector also supports DLP-LINK 3D. Enjoy even more immersion and deliver an unforgettable experience!

Android 9.0

Indulge in excellent entertainment and enjoy the convenience. The projector runs on Android 9.0 and supports 2.4G/5G Wi-Fi. This allows you to conveniently use a web browser, install apps and watch videos available on platforms such as YouTube and Netflix. You also gain the ability to connect to the projector wirelessly. The P19 works with the Eshare app and supports Airplay, Miracast and DLNA, for example.

Simple and convenient operation

The projector is equipped with several buttons, with which you can easily operate it. It also comes with a practical remote control that allows you to control the device remotely. With it you can, for example, adjust the focus, switch to 3D mode and adjust the volume. What's more, when you press and hold the Menu button, a special cursor will appear on the projector image, making it even easier to use the application!

Even more conveniences

Now you can freely use the projector almost anywhere. The P19 allows corner ($\pm 45^\circ$) and vertical ($\pm 35^\circ$) trapezium correction, so even if you set it at an angle, you can easily correct errors and enjoy a perfect image. The device also offers electronic zoom, and thanks to a state-of-the-art optical motor, it allows precise focus adjustment. The projector also has 2 built-in speakers of 3W each, which will provide you with high quality sound and allow you to feel like you're in a movie theater almost anywhere.

Wireless operation

Are you going on a picnic or under a tent? Or are you planning a gathering with friends in the garden? Take the projector with you and create your own cinema room wherever you want! The device is extremely handy and is equipped with a powerful 7800mAh battery. This allows it to operate wirelessly, with a working time of about 1.5-2.5 hours. You can also plug the projector into an outlet or powerbank to make sure it won't discharge at the most interesting moment of the movie.
