

## Earbuds TWS Haylou G3

Earbuds TWS Haylou G3

Ref: 6971664933567

### TWS Haylou G3 Headphones

Take your gaming experience to a new level. The TWS Haylou G3 headphones offer fantastic sound quality thanks to 13-millimeter drivers. They also guarantee a reliable connection and low latency. They also let you choose from 3 playback modes and provide a long operating time. They also have built-in microphones to help you communicate with other players.

### Made for gamers

Do you often spend long hours playing games? Take care of your comfort! The headphones fit perfectly in your ears and provide unparalleled comfort. They also stand out with stylish RGB backlighting. The G3 also feature IPX4 water resistance - they are not intimidated by rain or sweat. What's more, the case designed for the headphones is extremely light and compact - it will easily fit into a backpack or handbag. It, too, has been equipped with RGB backlighting, which gives it a modern, gaming character.

### Forget about lag

Haylou G3 headphones will perform perfectly during even the most dynamic gameplay. They are equipped with an advanced chip and support Bluetooth 5.2 for fast, stable and reliable transmission. Moreover, in Gaming mode, the latency level is only about 0.045 seconds. So you can enjoy amazing smoothness - beat your opponents and break another record!

### 3 playback modes to choose from

Haylou G3 have been created with different usage scenarios in mind. They offer 3 playback modes to choose from, making them perfect for almost any situation. Gaming mode guarantees low latency, while Music will highlight the best of your favorite music genres. Cinema mode will allow you to enjoy more immersion while watching movies - now in your own room you'll feel like you're in a movie theater!

### Fantastic sound quality

Discover your favorite songs in a new and better quality. The G3 headphones are equipped with state-of-the-art 13mm drivers, enabling them to deliver exceptional richness of detail, perfect harmony and delightful sound. They also offer crisp highs, ear-pleasing mids and deep, powerful bass. Get carried away by the music and give yourself an unforgettable experience!

### Durable battery

Have confidence that your headphones won't drain at the crucial moment of the game. Haylou G3 are equipped with a durable battery that allows them to last up to 4.5 hours fully charged. In addition, the included case allows to extend this time to about 20 hours. Charging the headphones won't take long - after about 2 hours they will be ready to work again!

### Perfect for calls

With Haylou G3 you can also comfortably talk on the phone and communicate with other players during online games. The headphones are equipped with high-quality microphones that will perfectly record your voice. They also offer an advanced DNN algorithm to provide even better sound quality during calls and intelligently reduce unnecessary background noise. Now you can be sure that your callers will hear you without any problems!

### Simple and convenient operation

Haylou G3 headphones are extremely user-friendly. All you have to do is pair them with your smartphone once - every next time they will connect automatically when you take them out of the case. This will save you time! The handsets also have built-in small touch panels, with which you can, for example, quickly answer the phone, hang up, stop playback, switch a song or change the mode. No more need to reach for your smartphone every time!
