

## Gaming mouse Havit Gamenote MS900 (MS760) RGB 12000 DPI

Gaming mouse Havit Gamenote MS900 (MS760) RGB 12000 DPI

Ref: 6939119018580

Programmable Havit MS900 (MS760) mouse

High quality Havit gaming mouse allows you to program it according to your needs. The non-slip surface makes the mouse lie perfectly in your hand and minimizes the feeling of fatigue during long use. The MS900 mouse is a spare name for the MS760 model.

Adjust the mouse sensitivity

It has the ability to adjust the mouse sensitivity up to 12 000DPI. You can adjust its shape according to your needs, and the anti-slip coating does not allow your hand to slip uncontrollably.

Interchangeable side panel

In order to create a mouse suitable for different players and different games, a removable side panel has been designed, which you can remove or put on at any time. The possibility to replace the side panel makes it suitable for players with different requirements.

16 million RGB colors

Thanks to the stylish mouse backlight, you can feel like a professional player. The ability to program the mouse allows you to decide what color scheme you want to create your gaming atmosphere.
