

Wired Earbuds XO EP28 (Green)

Wired Earbuds XO EP28 (Green)

Ref: 6920680872633

XO EP28 in-ear, wired headphones (green)

The XO EP28 in-ear headphones provide excellent sound quality, thanks to 14-millimeter drivers. What's more, the ergonomic design is responsible for long-lasting comfort, and the built-in microphone allows you to talk on the phone. Meanwhile, the remote control integrated into the cable allows you to conveniently manage incoming calls and the music player.

Great sound quality

The XO EP28s offer HiFi-grade sound, so you can enjoy rich details and crystal clear sound. What's more, they deliver deep bass and feature 14mm drivers.

Built-in microphone

The XO headphones have a built-in microphone, so you can comfortably make phone calls. In addition, the cable-integrated remote lets you answer/reject/end calls and control the music player, for added convenience. No more reaching for your smartphone, now you can access the most important information at your fingertips.

Long-lasting comfort

Don't be afraid of discomfort or feelings of fatigue during prolonged use of the EP28. The headphones are distinguished by their

ergonomic design, so they fit perfectly in your ears, allowing you to listen to your favorite songs and podcasts for a long time.
