

Hair clipper ENCHEN BEARDO

Hair clipper ENCHEN BEARDO

Ref: 6974728533666

ENCHEN Beardo Hair Cutting Machine

You no longer need to use professional hairdressing services to get satisfactory results. The ENCHEN Beardo hair clipper is equipped with a high-quality R-type blade and up to 4 comb attachments in different sizes. The device will also work perfectly as a trimmer. Its motor operates at speeds reaching up to 6,000 revolutions per minute. The 800 mAh rechargeable battery guarantees up to 90 minutes of use, and the included accessories, such as blade oil and a cleaning brush, will make it easy to maintain the device.

Speed and precision

The ENCHEN device will serve you as both a hair clipper and a trimmer. The R-type blade will help you precisely get rid of unwanted hair. It was made of stainless steel, so you don't have to worry about irritation. Thanks to the 4 comb attachments, you can easily adjust the work of the razor to your needs. Whether your goal is to achieve a lush hairstyle or you want to shave your hair completely, ENCHEN's product will work perfectly!

High-speed motor

The Beardo model is equipped with a motor that is distinguished by a speed of up to 6,000 revolutions per minute. Despite the high power, the device works surprisingly quietly - the volume level does not exceed 65 dB. This allows you to use the razor at any time without worrying about waking up other household members.

Powerful battery

The ENCHEN Beardo hair clipper is equipped with a powerful 800 mAh rechargeable battery, which allows up to 90 minutes of wireless operation on a single charge. That's enough to use the device's functions for up to 3 months before you need to plug it in for charging. An LED indicator will inform you of the battery's charge level.

Additional advantages

The ergonomic design of the ENCHEN device and the carefully designed handle make using the razor extremely comfortable. What's more, thanks to a special travel lock, you don't have to worry about the device accidentally turning on during transport. In the set you will find 4 interchangeable attachments in different sizes (3 mm, 6 mm, 9 mm, 12 mm), so you can easily adjust the work of the razor to your needs.
