

Orico Station Hub 2x USB+HDMI+USB-C

Ref: 6954301179313

Orico Station Hub 2x USB+HDMI+USB-C

Orico HUB Station 2x USB+HDMI+USB-C

Enhance the capabilities of your computer, laptop or even tablet. The Orico 4-in-1 Hub offers up to 4 ports - 2x USB, 1x USB-C and 1x HDMI. It enables fast PD charging and supports 4K resolution. It also allows you to transfer files at speeds of up to 5 Gbps. It is also distinguished by its lightweight and handy, yet durable design. High-quality aluminum alloy was used in its construction.

Wide compatibility

Make your work easier no matter what the situation. The Orico Hub is compatible with a wide range of laptops, computers and tablets from well-known brands such as Apple, Xiaomi, Lenovo, Dell and Samsung. What's more, you can easily connect a mouse, keyboard or USB drive, among others. The possibilities are almost endless!

Excellent quality 4K image

With the Orico station you can connect your laptop or smartphone to a larger screen and comfortably watch a movie, give a presentation at work or show your loved ones your vacation photos. The hub supports 4K resolution, which translates into excellent image quality. Now you will no longer miss any detail!

Instant data transfer

Forget about the prolonged wait until all the photos or videos you need are transferred between devices. The station's USB 3.0 port provides transmission speeds of up to 5Gbps (350 Mb/s)! What does this mean in practice? To transfer 1GB of files, you need only about 3 seconds! You don't have to wait too long anymore.

Fast charging

With Orico, you don't have to worry about your laptop unexpectedly discharging while you're working. The station's USB-C port supports PD fast charging and guarantees up to 55W of power. So you can connect your device's power supply to it and be sure that its battery won't refuse to serve you at the least opportune moment.

Improved design

The Orico hub is extremely lightweight and portable, yet durable. So you can always have it at hand! The device was created from high-grade aluminum alloy, which is extremely durable, damage-resistant and environmentally friendly. What's more, the product has a built-in advanced chip, which is responsible for its stable and efficient operation, even when you connect several devices to it at the same time.
