Soundpeats TWS Mini Pro headphones (white)

Accept the invitation to a true musical feast. The TWS Soundpeats Mini Pro headphones deliver high-quality sound thanks to 10-millimeter drivers and support ANC noise cancellation to cut through the noise. They have a runtime of up to 21 hours with the charging case, and Bluetooth 5.2 guarantees reliable interference-free transmission. The headphones will also work well for phone calls. They are also extremely lightweight and comfortable.

Say goodbye to annoying noise

Focus on your favorite songs and cut out the noise. The Mini Pro headphones use ANC noise cancellation technology to effectively filter out unnecessary sounds up to 35dB. Prefer to listen to music without losing touch with your surroundings? Transparency mode will allow you to do so! You no longer have to worry about missing some information from a co-worker or missing an important announcement at the airport!

Bluetooth 5.2

Soundpeats Mini Pro will let you forget about connection problems. Thanks to Bluetooth 5.2 technology, you can enjoy fast and stable transmission, as well as lower power consumption. The headphones will also work well during dynamic gaming. They offer a special gaming mode, where the latency is only about 60 ms. Enjoy perfect synchronization of video and sound, don't let your opponents

surprise you and break another record!

Delightful sound

The Mini Pro headphones will let you discover previously unknown details of your favorite songs. They are equipped with 10-millimeter drivers and support the aptX-Adaptive codec, so they can deliver clear, detail-saturated sound, crisp, powerful bass, and ear-pleasing treble and midrange. The songs you love to listen to have never sounded better!

Long-lasting comfort

Listen to music for a long time and don't worry about discomfort. The headphones are distinguished by their lightweight, ergonomic design - each weighs only about 4.8g. What's more, they fit fantastically to the shape of your ears and won't fall out of them, even when you move a lot or exercise. The Mini Pro also feature IPX5 water resistance - they are unafraid of raindrops or sweat. So you can take them for a workout or a spring walk without any worries!

Talk on the phone

The Mini Pro will provide you with excellent sound quality not only when listening to music, but also when you talk on the phone. The headphones have built-in high-end microphones and support advanced cVc 8.0 noise cancellation technology, so they will easily register your voice and emphasize its sound, while filtering out unnecessary background noise. Now, even in an extremely noisy place, you can be sure that you and your interlocutors will easily hear each other!

Many hours of playback

With long-lasting batteries and low power consumption, the Mini Pro can play music for up to 5 hours with ANC noise cancellation enabled, or up to 7 hours if you don't use it. In addition, the case you'll find included will allow you to extend this time to a maximum of 21 hours. No more worrying about your headphones discharging at the least opportune moment!

User-friendly

Mini Pro's practical touch panels provide quick and convenient access to their most important functions. Now, with just the right number of touches, you can, for example, stop playback, skip a song, answer a phone call, adjust the volume or select a playback mode. What's more, each handset connects to the device independently, so you can freely switch between them and use only one or both at the same time.
