Ref: 6921002615808

USB Bluetooth 5.1 adapter for PC, Mcdodo OT-1580 (black)

Bluetooth 5.1 USB adapter for PC, Mcdodo OT-1580 (black)

Your laptop doesn't support Bluetooth? Don't give up the ability to use your wireless devices of choice! The Mcdodo OT-1580 USB adapter allows you to pair up to 7 devices simultaneously and stands out for its wide compatibility. It offers high-speed Bluetooth 5.1 connectivity and has a range of up to 20m. The product is extremely easy to use and does not require the installation of additional drivers (in the case of Windows 8 and newer).

Connect up to 7 devices simultaneously

Say goodbye to limitations. The adapter allows you to pair up to 7 devices simultaneously, so you don't need to use additional USB ports. The accessory is compatible with such wireless devices as, for example, mouse, keyboard, speakers, headphones and game controllers. With its help, you can also connect your laptop to your tablet or phone to conveniently transfer files at speeds of up to 3Mbps.

Bluetooth 5.1

Forget about signal quality problems. The adapter uses Bluetooth 5.1 technology, which provides fast, stable transmission over

distances of up to 20m. No more delays and connection interruptions! The device also allows you to enjoy high quality sound. All this means that you can comfortably work, listen to music and even play dynamic games!

Simple operation

Operation of the device is extremely simple. If you are using Windows 8 or newer, just connect it to your computer - it will be ready for use right away. You don't have to waste time installing additional drivers! What's more, the adapter remembers the devices paired with it and when you restart your computer, it connects to them automatically. You don't have to deal with it anymore!
