

Filter set ND 8/16/32/64 PGYTECH for DJI Mavic Mini 2 SE /

Ref: 6970801335882

Filter set ND 8/16/32/64 PGYTECH for DJI Mavic Mini 2 SE /

Excellent image quality

Designed specifically for the DJI Mini 2 SE/ DJI Mini 2, PGYTECH filters are excellent image quality and performance. To meet the needs of those who appreciate excellent quality, high-grade German Schott optical glass was used in their construction. Obtained by lightweight aluminum alloy, the weight of only 0.8 g does not affect the convenience of use, and thanks to the quick installation, even the calibration of the gimbal is not required. The double-sided multi-layer coating process ensures resistance to water, grease, dust and scratches.

Top quality optics

Coating of German SCHOTT optical glass with inert density reduces color deviation. Numerous grinding and polishing processes, as well as IAD multilayer coating technology, ensure the highest standards of high-resolution image quality.

ND filter

The PGYTECH DJI Mini 2 SE/ DJI Mini 2 ND Filter Set (ND 8 16 32 64) (Professional) is designed to reduce the amount of light entering the lens to allow us to set the right exposure time for our purposes and avoid overexposure to the sun. By using a dim coating process, the risk of color distortion that often occurs with conventional ND filters is reduced.

Manufacturer code

P-12A-019

Filter

ND 8/16/32/64

Plastic

Optical glass / Aluminum

Weight

1,03 g

Compatibility

DJI Mavic Mini ; DJI Mini 2 ; DJI Mini 2 SE

Preço:

€ 46.49

Drones, Acessórios, DJI, Mavic, Mavic 2
