

Wireless Earphones TWS QCY T5 Bluetooth V5.0 (black)

Ref: 6957141406267

Wireless Earphones TWS QCY T5 Bluetooth V5.0 (black)

Professional Bluetooth Earphones

The high-quality QCY T5 earphones provide a stable connection to your mobile device thanks to Bluetooth 5.0. In gaming mode, the delay has been reduced to 65ms and the durable battery allows up to five hours of continuous operation without charging. Their ergonomic design and mode, created especially for gamers, definitely distinguish them from other Bluetooth headphones of this type.

Bluetooth 5.0 Connection

The latest Bluetooth 5.0 technology means that the T5 earphones use much less power while offering a stable connection. The gaming mode provides even faster performance, and you can control them without any restrictions with the touch switches on the earphones.

Minimum delays

The gaming mode has a minimum delay of 65 ms, which is three times less than the previous generation earphones. When you turn this mode on, you'll have an instant response from iOS and Android.

Use as you like

Both earphones can work independently, so you can easily decide whether you want to use both or just one.

Easy pairing

Simply pull the earphones out of the case to connect to your mobile device. When inserted in the case, they will automatically disconnect from the device. Only the first time you have to pair the earphones with your smartphone manually on your phone.

Excellent sounds

Earphones provide high-quality sounds and excellent sound. The 6 mm drivers, HD stereo and noise isolation from the outside allow you to enjoy extraordinary sounds. DSP technology allows you to make top-notch phone calls.

Durable

The earphones allow for 5 hours of uninterrupted listening, and another 20 hours are closed in the case's battery, as it has a capacity of 380 mAh. Enjoy your favorite music wherever you are, without worrying about charging.

Carefully considered design

The earphones weigh only 4.3 grams, so you can completely forget that you have them in your ears. Their considered design and ergonomic shape ensure full comfort during use.

Touch control

With the built-in touch panel, the size and weight of the earphones have been greatly reduced and you can comfortably control them by touch.

Control with your voice

The earphones are compatible with voice assistants, allowing you to control them by voice. All you have to do is say the right command, and they work exactly as you need them to.

IPX4 Protection

Thanks to excellent nanomaterials, the earphones have IPX4 protection. From now on, you don't have to worry about the rain and then while doing your favorite activities.
