

Parking heater HCALORY T01, 12V, 8 kW, Diesel (black), GV

Ref: 5905316141247

Parking heater HCALORY T01, 12V, 8 kW, Diesel (black), GV

Parking heater Hcalory T01 (black)

Have confidence that your car or camper will always be pleasantly warm. Diesel heater will allow you to heat the space of your choice and make it easy to defrost the windows! It stands out for its low combustion of about 0.64l/h, and its convenient operation is enabled by the LCD panel and the included remote control. The device is also very easy to install and environmentally friendly.

Bet on universal solutions

The product is compatible with most 12V vehicles. You will successfully use it, for example, in a passenger car or an RV. It's an ideal solution for travel time and more! Thanks to the heater you will easily take care of the right temperature in your vehicle, you will also remove frost and ice from its windows. What's more, the device is very easy to install and remove. You can easily install it in a new car, for example!

Efficiency and reliability

The heater works on the basis of combustion technology. This means that the fuel is heated and then vaporized into gas by a ceramic spark plug. The device is distinguished by fast ignition and low combustion reaching only about 0.64l/h. In addition, thanks to its

advanced automatic control technology, the product performs perfectly in almost all conditions.

Safe use

Enjoy safe use. The heater uses intelligent temperature control technology and is effectively protected against overheating. What's more, the use of Diesel fuel guarantees less combustion than regular gasoline, which will save you money. The device also meets the European Euro IV standard, which means it has low emissions and is environmentally friendly.

User-friendly

Operation of the T01 heater is facilitated by a special panel with an LCD screen and the included remote control, which has a range of up to 100m. So you can turn on the heater even from a considerable distance! The product also offers a timer function. You can also choose from 2 speed settings, as well as adjust the temperature or power. So you can easily adjust the device to your needs!
