

Diving Waterproof Light Puluz LED 40m (Black)

Diving Waterproof Light Puluz LED 40m (Black)

Ref: 5905316141278

PULUZ waterproof dive light for sports cameras

Create breathtaking shots underwater. The PULUZ dive light is distinguished by its IPX8 waterproof rating, so you can take it underwater with you as far as 40 meters. Its maximum runtime is 6 hours, and the magnetic cable (included) will allow you to charge the light quickly and conveniently. A set of color filters is also included. It is extremely lightweight and small, so you can always carry it with you. The universal 1/4 " thread and cold shoe will make it easy for you to mount it.

Up to 6 hours of operation

The device is equipped with a durable 2500 mAh battery. It provides up to 6 hours of uninterrupted operation. So you can freely use it, for example, while diving on vacation. Its charging will not take you long - after about 2.5 hours it will be ready for operation again. The magnetic cable, which you will find in the set, will make charging easier for you.

Filter set

Get spectacular effects on your recordings! The set includes a set of 8 interchangeable filters of different colors. It will help you take amazing underwater shots that are sure to impress everyone. In addition, the brightness level of 650-750 lm and color temperature reaching up to 6500K will allow you to create a unique atmosphere.

Thoughtful design

The lightweight and compact design of the device will make it easy for you to store and transport - you can successfully stow the lamp in a backpack or bag and take it with you to almost any place. It is made of durable PC plastic, which is characterized by high resistance and durability. The universal 1/4 " thread and cold shoe will allow you to easily mount the light to a tripod, selfie stick or camera. It also has IPX8 protection certification, so you can take it underwater up to 40 meters.
