Phone extension pole tripod set PGYTECH with 1/4" adapter an

Selfie stick/stand PGYTECH with phone holder, sports camera with 1/4 thread, foot and adjustable length

Awaken your creativity and see with what ease you can take impressive photos and record original content. PGYTECH has an innovative proposition for you - a selfie stick and tripod in one with an additional holder for your phone. The universal 1/4" thread ensures wide compatibility with popular devices. You can conveniently adjust the length of the handle from 17 to 47 cm. What's more, Cold Shoe mounts on both sides of the handle and on the tripod allow you to mount additional accessories.

Tripod and selfie stick in one

Say goodbye to the need to equip yourself with several products and enjoy the many possibilities of the P-GM-219 model! PGYTECH's proposal will realize all your needs when recording videos and taking photos. You can adjust the length of the selfie stick from 17 to 47 cm. Thanks to this, you can easily take the product with you anywhere and not miss the chance to take a unique shot! If necessary, you will efficiently extend the built-in tripod and enjoy the convenience of recording video footage.

Thoughtful design

Want to create stunning shots and adjust the angle by up to 110°? Or maybe take a group selfie? Techwood's product will enable you to do all this and much more! The Cold Shoe mount on the tripod allows you to mount additional accessories. The product is made of aluminum alloy and rubber, non-slip materials that provide stability for your equipment. What's more, the tripod is equipped with a

panoramic head, so you can conveniently adjust the angle of recording.

Universal handle

The mount that the selfie stick/stand comes with is compatible with smartphones from 60 to 92 mm wide. Want to create a recording in portrait mode? Or maybe take a stunning landscape photo? With the PGYTECH mount, anything is possible! Cold Shoe mounting is located on both sides of the mount, so you can freely mount additional accessories such as a microphone or lighting. The 1/4" thread ensures wide compatibility. You can also adjust the tilt angle by 110°. Don't limit yourself and create original shots!

Wide compatibility

Thanks to the 1/4" thread, the PGYTECH product is very versatile. You can use it with many phone models (with a width ranging from 60 to 92 mm), sports cameras and mirrorless cameras. The P-GM-219 model can bear a load of 1 kg. Enjoy the many possibilities offered by the product and realize your ideas without obstacles!
