

## Filter PGYTECH VND 6-9 stop for DJI Mavic 3 Classic (profess

Filter PGYTECH VND 6-9 stop for DJI Mavic 3 Classic (profess

Ref: 6970801339361

PGYTECH VND 6-9 degree filter for DJI Mavic 3 Classic

If you are professionally involved in drones, the VND filter will definitely appeal to you. With its use, you can get perfect shots in different lighting conditions and excellent image quality. It will allow you to control the shutter speed, as well as properly reduce the amount of light entering the lens, so you get perfect exposure and increased motion blur. It stands out for its high efficiency, which is comparable to the performance of as many as four ND filters.

Long exposure

The filter will work great in very bright conditions - it will help reduce the amount of incoming light and achieve a long exposure. Just a slight rotation is enough to adjust it to the prevailing conditions, as it uses the action of as many as four ND filters - 64/128/256/512. What's more, the accessory does an excellent job of reducing reflections. Changing filters no longer has to be a necessity. Don't let the opportunity to take the perfect shot pass you by!

Thoughtful design

The filter from PGYTEch is designed so as not to disturb the perfect balance of your drone. It is distinguished by its extreme lightness, which it owes to CNC aluminum, and yet it is extremely resistant to corrosion and scratches. What's more, the filter has been coated with an oleophobic and hydrophobic layer on both sides, so keeping it clean will not be a problem.

Excellent image quality

Responsible for the fantastic image quality is the professional Japanese AGC optical glass, which has been ground and polished many times to maintain a low refractive index, so you get perfect color reproduction in your photos.

Kit contents:

VND filter (6-9 stop)

Cleaning cloth

Operating instructions

Manufacturer

PGYTECH

Model

P-39A-013

Compatibility

DJI Mavic 3 Classic

Material

Aluminum, optical glass

Dimensions

φ39.2mm x 5.9mm

Weight

8.6g"

Preço:

Antes: € 24.5016
