

USB-C to Lightning cable Romoss CB1737, 27W, 1m (grey)

Ref: 6936857202493

USB-C to Lightning cable Romoss CB1737, 27W, 1m (grey)

Romoss CB1737 USB-C to Lightning cable, 27W, 1m (gray)

With this cable charging and data transfer will not take long. The maximum transmission speed is as high as 480 Mbps. The cable supports PD technology with a power of 27W, so it will only take you 30 minutes to charge your phone to 50%. The well-thought-out structure ensures reliable durability. You can rest assured that your cable will be safe even if you carelessly toss it in your bag, as it uses flexible SR PVC for its construction, and the ends are additionally reinforced. A double nylon braid is used along the entire length of the cable, so its lifespan is significantly extended.

Wide compatibility

Two ends - USB-C and Lightning - will ensure quick replenishment of almost all your devices. What's more, they have an additional nickel-plated coating, making them resistant to damage and rusting, so the cable will successfully serve you for a longer time.

Manufacturer

Romoss

Model

CB1737-631-G43H

Charging protocols
