

Portable Monitor BlitzWolf PCM2L 13.3-inch HDMI 1080p (black)

Ref: 5905316141483

Portable Monitor BlitzWolf PCM2L 13.3-inch HDMI 1080p (black)

BlitzWolf PCM2L 13.3" HDMI 1080p Portable Monitor (Black)

Make your work easier and get more freedom for entertainment. The 13.3" BlitzWolf BW-PCM2L portable IPS monitor lets you choose from 2 display modes and offers FHD (1080p) resolution. The device also has built-in speakers and a practical folding stand. You also get an OSD button and ports such as USB-A, USB-C, HDMI and 3.5mm audio, for example.

Thoughtful design

The monitor is equipped with a folding stand, so you can place it stably on a table or desk at any time. In this way you will ensure an optimal viewing angle, and thus greater comfort of use. When you're done working, simply fold the stand! After folding it, the monitor becomes thin and handy enough that you can easily take it with you to the university, to work or on the train. You can easily fit it in your backpack or laptop bag!

Built-in speakers

With the monitor you can also comfortably watch a movie, play a concert by your favorite artist or play a game. The device is equipped with 2 speakers that allow you to enjoy clear, crisp sound. They also provide a fantastic 3D surround sound effect. Enjoy a higher level of immersion and give yourself an unforgettable experience during your next movie night or dynamic game!

Several available ports - many possibilities

Forget about limitations. The monitor is equipped with several ports - 1x USB-A, 1x 3.5mm audio, 1x HDMI and 2x USB-C. This allows you to connect various devices to it and gain more freedom when working or playing games. For example, the HDMI interface allows you to hook up a gaming console or laptop, while USB-C will be perfect for a smartphone.

2 display modes

The BW-PCM2L monitor allows you to choose from 2 display modes. This makes it great for a variety of applications. Duplicate mode allows you to duplicate the image from your laptop or other device on the monitor. This is perfect if, for example, you want to watch a movie on a larger screen. Extend mode allows you to expand the image - you will use it, for example, while working.

High image quality

Enjoy exceptional richness of detail and vivid, natural colors. The monitor is equipped with a high-end FHD (1080p) IPS display. It is also distinguished by HDR support, brightness of 300cd/m² and a contrast ratio of 1000:1, so it can provide a clear, readable image in almost any conditions. This means that it will be perfect for watching movies and TV series, for example!
