ORICO Type-C 10in1 HUB Multifunction Docking Station (rose g

Orico USB-C, HDMI, 3xUSB, SD/TF, Audio (rose gold) 10-in-1 HUB Docking Station

With the Orico PW11-10P-RG-EP docking station you can easily increase the capabilities of your computer. The device offers up to 10 ports - 3x USB-A, 1x 3.5mm audio, 1x SD card slot, 1x TF card slot, 1x HDMI, 1x VGA, 1x Ethernet port and 1x USB-C. This functional hub will allow you to transfer files at speeds of up to 5Gbps and supports PD 100W fast charging. It also supports 4K video resolution.

Carefully considered design

Don't worry about the station getting excessively hot. You can enjoy its efficient operation even when you connect more devices to it! The product is also very light and handy - if necessary, you can easily take it with you to work, on a business trip or to the university. You will easily find a place for it in your purse, backpack or laptop bag!

Fantastic image quality

Planning to show your friends your vacation photos? Do you need to give a presentation at work? Or maybe you want to watch a movie on a bigger screen? No problem - just connect your laptop to a TV or projector using the station's HDMI port. The device allows you to display 4K / 60Hz, 4K / 30Hz, 2K / 60Hz and 1080p / 120Hz. This way you will not miss any detail!

Instant file transfer

Now you can transfer your files between devices even faster. The Orico docking station offers 3 USB 3.0 ports, which provide transfer speeds of around 420MB/s. This means that it only takes about 3 seconds to transfer 1GB of data! No longer do you have to wait too long for the photos or videos you need to reach their destination.

Fast connection to the Internet
You can also use the Internet more conveniently with Orico. The station's Ethernet port supports speeds of up to 10 / 100 / 1000Mbps, which translates into an extremely fast and stable connection. Forget about delays and pages that take too long to load! Now you can browse social media, work, watch YouTube videos and even play games without interruption!

Fast loading
Provide your laptop with a constant power source and don't worry about it discharging at the least opportune moment. The station's USB-C port supports PD 100W fast charging - simply plug in the power adapter (not included) and rest assured that your device won't run out of power! For example, using the hub, you can charge a 13" MacBook Pro in about 1.5 hours, and a 13" MacBook in about 2 hours.

Use memory cards
The Orico docking station also offers 2 memory card slots - TF and SD. It will therefore be an ideal option for graphic designers, film editors and web developers. The device guarantees impressive read and write speeds - it will meet the expectations of even the most demanding creators. You no longer have to wait too long for the files you need to be where you want them!

Wide compatibility
This practical hub works seamlessly with Windows, Linux, Mac OS and Android operating systems. You will successfully use it, for example, to connect a mouse, keyboard or USB drive to your laptop, tablet or smartphone. The device is also compatible with Apple M1 and M2. The possibilities are almost endless! Note: your phone and tablet must support the OTG function.

Possibility to connect headphones
Your smartphone or tablet doesn't have a mini jack port? Don't give up the possibility to use wired headphones! The hub is equipped with a 3.5mm audio jack that supports Hi-Fi output. This allows you to enjoy high quality sound wherever you want - at home, at work or at the coffee shop. Connect headphones to the station and listen to your favorite songs comfortably!
