TELESIN Universal Handlebar Tube Clamp Mount for action came

TELESIN 360° bike mount with buckle for sports cameras

Capture your next bike trip from an unusual perspective. The Telesin GP-HBM-003 handlebar mount will help you do just that! The accessory is compatible with most sports cameras and smartphones, and high quality materials were used in its construction. An additional advantage of the mount are 2 ball joints, which allow you to position the device placed on it at any angle.

Get a unique perspective

Create even more interesting, breathtaking shots. The GP-HBM-003 mount will allow you to stably mount your sports camera on the handlebars of your bike, and thanks to 2 ball joints you can tilt the device or rotate it 360° at any time. Position it at the angle of your choice and record a spectacular video from a unique perspective!

Unparalleled stability

The mount is equipped with a sturdy clamp that allows it to be easily mounted on the handlebars and guarantees unparalleled stability. In addition, the use of high-quality materials has made the accessory extremely shockproof - don't worry that unwanted camera shake will spoil your video! The product is also extremely lightweight, yet durable and resistant to wear and tear.

Wide compatibility - 2 adapters included

The set includes 2 adapters, including one with 1/4" thread. This will allow you to mount your sports camera on the mount without any problems! The accessory is compatible with a wide variety of devices, so it will work in almost any situation. Note: for smartphones and some cameras, you will need an additional mount or frame (sold separately).

Even more possibilities

This practical accessory will find use in many different scenarios. With its help you can attach the camera not only to the handlebars, but also, for example, to a handrail or a branch. It is also possible to mount a selfie stick or boom on the handle. Now you can easily create exactly the shot you want!
