

TELESIN Universal Handlebar Tube Clamp Mount for sport camer

Ref: 6974944460005

TELESIN Universal Handlebar Tube Clamp Mount for sport camer

TELESIN 360° bike mount with buckle for sports cameras (aluminum)

Record your next bike trip from an original perspective. This will allow you to do so with the Telesin GP-HBM-001 handlebar mount, which is made of durable aluminum alloy and is compatible with many models of cameras and smartphones. It has the added advantage of 2 ball joints so you can position your device at any angle.

Stable and durable

Among other things, high quality aluminum alloy was used to make the accessory, which, combined with non-slip elements, guarantees unparalleled stability and shock resistance. No longer do you have to worry that unwanted vibrations will spoil your video or that the camera will fall and be damaged! What's more, the sturdy clamp makes mounting the mount to your handlebars quick and easy.

Record from any angle

Do you want to create even more interesting shots? Do you care about getting a unique perspective? With the GP-HBM-001 mount it's possible - the accessory is equipped with 2 ball joints, so you can tilt the mounted camera at will and rotate it 360°. Set it to the angle of your choice and capture your crazy ride down the slope in a spectacular recording!

2 adapters included - universal compatibility

Do you record videos with your smartphone on a daily basis? Or do you use a GoPro? Don't worry about compatibility issues - the Telesin mount will work perfectly with most sports cameras and phones. The set includes 2 adapters that will allow you to mount your chosen devices without any problems. Note: for smartphones and some cameras, you will need an additional mount or frame (sold separately).

Additional capabilities

GP-HBM-001 mount will come in handy not only when cycling. With its help you can also easily attach the camera to a handrail, motorcycle handlebars or branches. The jaw spacing of the clamp is 22-38mm, but it is possible to reduce it to 9-15mm using the included silicone cap. However, it doesn't stop there. You can attach a selfie stick or jib to the accessory - this way you can get an even more interesting perspective and record an original video!

In the box
