Tripod + selfie-stick Mini 2-in-1 Insta 360 (X3, ONE RS, ONE R, ONE X2, GO 2)

Opt for practical solutions. The device combines a tripod and a selfie stick, which will increase the capabilities of your Insta360 camera. It is compatible with various models of Insta360 sports cameras, and also supports invisible stick functions. The carefully thought-out design of the tripod will allow you to record spectacular shots in any conditions.

Take it with you anywhere

Create exceptional shots anywhere. The lightweight and compact design means you can take the tripod with you almost anywhere. You can easily put it in your bag or backpack and take it on vacation, for example! In addition, the universal 1/4" thread guarantees wide compatibility.

Durable construction

High-quality materials were used for the construction of the device, which are characterized by above-average durability. The tripod has as many as 3 support points, which reduces the risk of tipping over. With it you will take the quality of your materials to the next level!

Stunning effects on your photos

Experience how easy it is to create stunning frames. The Selfie Stick is automatically removed when you take 360° photos, so you can

easily take a selfie with your friends, and the stick will be invisible! This is great for creating original shots from different perspectives.
