

Hard Drive Enclosure Orico HDD 2,5" + USB 3.1 (10Gbps), USB-

Ref: 6936761895477

Orico 2.5" external hard drive enclosure

Turn your old hard drive into a useful file storage tool. Orico's transparent external enclosure supports capacities up to 4TB and data transfer speeds up to 10Gbps. Easy to install and durable - it will work for many applications. The product is compatible with most 2.5" HDD/SSD with SATA port. It also comes with a USB-C to USB-C cable.

Even faster data transfer

The USB 3.1 to SATA 3.0 connection and improved chip enable file transfer speeds of up to 10Gbps. So you can copy all the documents you need in no time. Fast data writing and reading speeds not only allow you to conveniently back up data, but also to watch HD movies or play games, for example.

Convenient to use and durable

The product is made of durable PC plastic, which provides it with shock and scratch resistance, durability and extremely low susceptibility to wear and tear. An additional advantage of the case is its transparency, so you can easily check what hard drive is inside and find the right files. You don't have to describe everything anymore - just take a look!

Energy savings

The design of the chassis incorporates smart features to help you enjoy even greater performance and reliability. After 10 minutes of inactivity, the device automatically goes into sleep mode, which not only reduces power consumption, but also ensures your safety of use.

More storage space

You no longer have to worry about running out of space to store your files. The Orico enclosure supports hard drives with a capacity of up to 4TB. That means you can store a lot of pictures, music, movies, documents and even programs without any problems. Your possibilities are almost limitless!

You install it without tools

The enclosure is extremely easy and quick to install. You don't even have to use additional tools - just slide the specially designed cover. The product is also distinguished by wide compatibility. You can easily install all kinds of 2,5" hard drives with SATA port in it.

Useful cable included

The kit also includes a practical USB-C to USB-C cable to make your work even easier. Characterized by a high-purity copper core provides fast data transmission and a reliable source of power. With it you can copy all the files you need in just a few moments!
