

Powerbank LDNIO PL1013, 10000mAh + 3in1 cable (white)

Ref: 6933138690307

Powerbank LDNIO PL1013, 10000mAh + 3in1 cable (white)

LDNIO PL1013 powerbank, 10000mAh + 3-in-1 cable (white)

Safely renew the energy of various devices with the LDNIO powerbank. The PL1013 is distinguished by its 10,000mAh capacity and has a built-in cable whose connectors are compatible with USB-C, micro USB and Lightning ports. No more need to buy additional cables! What's more, the USB port supports fast charging technology, and the product is completely safe to use.

Impressive capacity and fast charging

The capacity of the LDNIO powerbank is as high as 10,000 mAh. What's more, the PL1013 will renew the energy of your devices in no time. The micro USB and USB-C ports allow for 2.1 A of power.

Built-in cable

Thanks to the fact that the PL1013 comes with a cable with up to 3 different connectors: USB-C, micro USB and Lightning, you don't have to worry about incompatibility with your equipment or buy additional cables. The powerbank will work perfectly with a variety of phone models.

Refined design

The PL1013 features a push button, which makes it easy to operate the powerbank. In addition, the LED indicator will let you know when the device is working. All for your convenience!

A number of safety features

The LDNIO powerbank provides a number of safety features. You don't have to worry about short-circuit, overheating, overcharging, over-discharge or short circuit, among others. The casing of the device is made of fire-resistant PC material, which further increases the level of safety. Also noteworthy is the smart chip.
