

Smart Boiler Heating Thermostat Avatto WT50 3A Wi-Fi Tuya

Ref: 6976037360070

Smart Boiler Heating Thermostat Avatto WT50 3A Wi-Fi Tuya

Avatto WT50 smart thermostat for CWU boilers 3A Wi-Fi TUYA

The Avatto WT50 smart thermostat operates DHW boilers and allows you to directly turn on/off their power supply to provide hot water for space heating. It is equipped with a 10K B3950 NTC sensor, which is responsible for temperature accuracy of up to 1°C. It connects to a smartphone/tablet via the Tuya and Smart Life apps and works with voice assistants.

Customize its operation to suit your needs

From the Tuya or Smart Life app, you can program the thermostat's operation. The device supports different temperature settings for a period of 5+1+1 / 5+2 / 7 days respectively with 6 time modes per day. You can also use manual, automatic or away modes.

Convenient control

You can control the Avatto WT50 smart thermostat in 3 different ways. The product works with the Tuya or Smart Life app, which you download to your smartphone or tablet with Android and iOS operating systems. This allows you to customize the product's operation no matter where you are. It is also possible to control the WT50 through voice commands - the thermostat is compatible with Amazon Alexa, Google Home, Yandex Alice, etc. You can also use the buttons on the device.

Access to the most important information

Another advantage of the Avatto WT50 is the LCD display. From it, you will learn about the set operation mode, connection to the network, set temperature or safety lock on. What's more, the thermostat displays the current time. You can also adjust the brightness of the screen or turn it off completely. This way, you have all the most important information at your fingertips - just take a glance!

Additional features

The Avatto WT50 smart thermostat is equipped with a special child lock that prevents the use of buttons. This will prevent you from turning on/off an unwanted function. In addition, in the event of an emergency or temporary power outage, it will restore the last used settings.
