Dash camera Hikvision K5 2160P/30FPS + 1080P

Dash camera Hikvision K5 2160P/30FPS + 1080P

Hikvision K5 video recorder 2160P/30FPS + 1080P

During long and short car rides, your indispensable companion will be the Hikvision dashcam K2. The built-in G-Sensor sensor will keep you safe as it activates emergency recording during a collision. It will also provide protection when parking.

## Protection while driving

You and your car will always be safe thanks to the Hikvision video recorder. Recording of any traffic incident is guaranteed by the possibility of supporting SD cards with a maximum memory of 128 GB and looping of recordings. When your vehicle is in a collision or strong vibrations, the built-in G-Sensor will allow emergency video recording. The camera will furthermore provide you with good quality video, as its front camera has a resolution of 1440P and the rear camera 1080P.

## Easy to use

The 3-inch screen with a resolution of  $854 \times 480$  that the car camera is equipped with is adjustable up, down, left and right at an angle of 15 degrees. This makes it easy for you to position the equipment accordingly. The mobile APP connection will enable you to view the video in real time, set the relevant parameters and play back the recorded footage or pictures.

## Additional features

The Hikvision video recorder guarantees simple operation and easy installation. When switched on, it will start recording as soon as the

engine is started. Communication with the device is facilitated by the built-in Wi-Fi module. In addition, you can operate it with 9 voice commands. These include: "open screen", "display before recording", "display after recording", "see all", "close screen", "video lock", "I want to take a picture", "open recording" and "close recording". This function makes using the camera even more convenient.

## Protection when parking

∏Manufacturer

Want to make sure your car is safe when you leave it in a parking lot? While parked, your support will be the Hikvision K5 video recorder, which has a parking monitoring function. Thanks to it, the equipment will record even though the engine is turned off. This option is supported for 12,24 and 48 hours. This mode is only available when connected with a power cable (not included)
