

Computer case Darkflash Blade-X Mesh

Computer case Darkflash Blade-X Mesh

Ref: 4710343792253

Darkflash Blade-X computer case

Want to build a computer that will not only serve you well, but also look fantastic? Opt for the Darkflash Blade-X open frame computer case! With its help you will easily create your dream hardware configuration for gaming and more. The product stands out for its remarkable open-frame design and RGB backlighting, and is compatible with a wide variety of components.

Original design

The Blade-X case draws attention with its original design. The open frame allows you to freely install the components of your choice and enables fantastic visual effects - just mount RGB backlit devices on it. Say goodbye to limitations! What's more, the chassis itself is equipped with ARGB light strips that offer up to 12 different effects. Find the best setting for you!

Additional amenities

The case's original design has even more advantages. Blade-X is designed to help you organize your cables properly. Now you can easily take care of the order! The product is also extremely sturdy and durable - the highest quality SECC steel and aluminum alloy were used for its construction. It is also possible to position the case vertically or horizontally - the choice is yours!

Build your dream computer

Build a computer that can easily handle even the most demanding games. The Blade-X case allows you to mount several HDD and SSD drives, and allows you to install 2 ATX power supplies. It is also compatible with ATX, M-ATX and ITX motherboard standards. You'll also be able to fit a graphics card up to 450mm in length and a CPU cooler up to 170mm in height without any problems.

Even more possibilities

As many as 7 expansion card slots will allow you to customize the case even better to your needs. You also don't have to worry about your computer getting excessively hot. Blade-X allows you to install either a coolant tank or a 120 / 240 / 360mm or 140 / 280 / 420mm AiO water cooler. Now you can play your favorite titles or use demanding programs without any problems!

Essential ports and buttons

Get more options and enjoy comfortable work at your computer. The case is equipped with several useful ports, including headphone/speaker output, microphone input, USB 2.0 and USB 3.0. So you can, for example, comfortably listen to music and quickly transfer the files you need. The Blade-X model also has Power and LED buttons. With Darkflash, everything you need is at your fingertips!
