Colmi P28 Plus smartwatch (black)

Make your life easier and be sure you won't miss anything important. The Colmi P28 Plus smartwatch will notify you of incoming messages and let you talk on the phone. It also stands out for its long operating time and IP67 water resistance. Its additional advantage is a large 1.69" display with a resolution of 240x280. The device also offers a number of useful features, such as heart rate and sleep monitoring. You can also choose from 28 sports modes.

1.69" display

Convenient operation of the smartwatch is enabled by a 1.69-inch TFT display with a resolution of 240x280. It provides a bright, clear image and is made of high-quality 2.5D glass. It is also distinguished by extremely narrow bezels, so you can enjoy a wider field of view. It is also possible to customize the appearance of the screen according to your preferences - choose from more than 100 available dial designs or upload your own photo!

For the sake of your health

Keep everything under control and gain the ability to react quickly to any disturbing changes. The smartwatch allows you to measure your heart rate even around the clock, it also measures blood oxygen saturation, among other things. It will also work well as a menstrual calendar and remind you to move and drink water. A sleep monitoring function is also available - get to know your biological

clock, change possible bad habits and finally start getting enough sleep!

You won't miss anything important

You no longer have to worry about missing some important information. The smartwatch will immediately notify you of incoming messages - it is compatible with most popular apps such as Facebook, WhatsApp and Twitter. You can also use the device to conveniently talk on the phone (via Bluetooth). Answer a call or dial a number from the watch's display - no need to reach for your smartphone anymore!

Tailored to you

The P28 Plus smartwatch is extremely light and comfortable - you can have it on your wrist for a long time without worrying about discomfort. At the same time, the device looks really good - it features a modern, minimalist design. It's a perfect complement to many stylings! The smartwatch is also distinguished by its IP67 water resistance - you don't have to take it off when you wash your hands, go for a workout or leave the house in rainy weather.

28 sports modes

Plan more and more effective workouts, track your progress and set more goals to achieve. The smartwatch measures distances traveled and monitors your heart rate while exercising, it also counts steps and calories burned. It also offers 28 sports modes to choose from. Walking, running, biking, mountain climbing, soccer, dancing or maybe bowling? You're sure to find something for you!

Long working hours

Don't be afraid of having to charge your smartwatch frequently. The P28 Plus is equipped with a durable 235 mAh battery. Thanks to this, its working time reaches 3 days with ordinary use or 5 days in standby mode if you use Bluetooth phone calls. If you don't make calls, the smartwatch's operating time is 7 days with normal use and 25 days in standby mode.

Even more features

That's not the end of the possibilities - the smartwatch offers even more useful functions that will be perfect for everyday use. With its help, for example, you can remotely operate the camera and music player on your smartphone, you can also check the weather forecast and set the alarm clock. Can't remember where you put the phone paired with the watch? Colmi P28 Plus will make it easy for you to locate it!
