Adapter USB 3.0 to lightning Mcdodo OT-8600 (black)

USB 3.0 to Lightning adapter, Mcdodo OT-8600

Expand the capabilities of your smartphone or tablet. The USB 3.0 to Lightning adapter by Mcdodo allows you to connect a wide variety of devices to your chosen device. It also allows you to transfer data at speeds of up to 400 MB/s. In addition, the product is distinguished by its wide compatibility and lightweight, compact design. At the same time, it guarantees smooth and stable operation.

Many possibilities

Forget about limitations. With the Mcdodo adapter you can connect a USB drive, mouse, keyboard, digital camera and even a game controller to your phone or tablet. This will make your work easier, give you more space for your files and enjoy more freedom. What's more, the product supports OTG functionality.

Fast file transfer

The Mcdodo adapter allows you to transfer files at transfer speeds of up to 480 Mbps. What does this mean in practice? You don't have to wait long for your files to be copied - it takes only about 3 seconds to copy 1 GB of data. Photos, videos, documents - with Mcdodo you will transfer them between devices in no time!

Refined design

Take the adapter to work or college! The device is extremely light and compact, so it will easily fit in your bag or even in your pocket. It is made of durable zinc alloy, which translates into strength and resistance to damage.
