Mcdodo TWS Earbuds HP-2780 (white) in-ear headphones

Ensure complete comfort while listening to music. Mcdodo in-earbuds support Bluetooth 5.1 and are distinguished by long wireless operation at a distance of 10 meters. At the same time, they are extremely lightweight and comfortable to use - the built-in touch panel allows you to easily control the music you are playing, and the included charging case will replenish the headphones in no time and extend their operating time up to 20 hours! The water resistance of the product is IPX4.

Bluetooth 5.1

Forget about limiting cables! The Mcdodo dock headphones support Bluetooth 5.1 connection, so you can enjoy great transmission quality without interference at a distance of up to 10 meters. What's more, this version of Bluetooth allows efficient operation with less power consumption, so you can listen to your favorite music for up to 4 hours without charging interruptions.

Fast charging in a case

You'll find a sleek charging case included to extend the headphones' runtime up to 20 hours. Built-in LED indicators will keep you updated on the device's power status, and when the time comes, you'll be able to top it up in no time (1.5 hours) using the USB-C cable.

Robust design

You don't have to worry about the headphones quickly refusing to serve you. High-quality PC and ABS materials were used in their construction, so the headphones are resistant to wear and tear. What's more, the waterproof rating is IPX4, so they won't be harmed by sweat or mild splashes. You can successfully take them to your workout or continue listening to music when caught in the rain.

Comfortable use

Listen to music and forget about everything else. The Mcdodo TWS Earbuds are extremely lightweight and comfortable to use. Managing your music will be easy with the built-in touch panel - just touch the earbuds to change, stop or resume a song. Experience how convenient it is!
