Charger GaN 140W Mcdodo CH-2911, 2x USB-C, USB-A (black)

Ref: 6921002629119

Charger GaN 140W Mcdodo CH-2911, 2x USB-C, USB-A (black)

GaN 140W mains charger Mcdodo CH-2911 2x USB-C, USB-A (black)
 Save time and space with the Mcdodo network charger. The device supports most popular fast charging protocols and provides a power supply of up to 140 watts! At your disposal are up to 3 ports (2 USB-C and 1 USB-A), with which you can replenish the power of your devices in no time. The charger uses GaN technology, and fireproof PC is used for its construction. At the same time, it is extremely lightweight and handy, so you can easily fit it in your backpack.

Efficient performance
 You no longer have to wait indefinitely for your devices to charge. The AC charger offers up to 3 fast charging ports, so you can top up your phone, laptop and headphones at the same time. What's more, the ports are compatible with most popular protocols and will safely charge equipment from well-known manufacturers. Just 30 minutes is enough to replenish the Samsung S22's battery to 72%.

Smart power distribution
 The mains charger is equipped with an intelligent chip that automatically detects the connected device. This allows it to adjust the power supply at the right level to safely replenish the battery.

Wide compatibility

Now you can replace all your chargers with one! Mcdodo CH-2911 stands out for its wide compatibility and supports popular fast charging protocols. Depending on the selected port, it offers a power supply of 140W/100W/60W, so it will safely replenish your phones, laptops and other devices.

Robust design

You don't have to worry about damaging your equipment, as the CH-2911 mains charger was made with attention to every detail. GaN is responsible for maintaining optimal temperature and efficient operation, and the use of high-quality materials makes the device fully safe and wear-resistant.
