

Suction cup mount PGYTECH for sports cameras (P-GM-132)

Suction cup mount PGYTECH for sports cameras (P-GM-132)

Ref: 6970801335905

PGYTECH suction cup mount for sports cameras (P-GM-132)

The suction cup mount from PGYTECH is perfect for photo accessories such as sports cameras, smartphones, microphones and more. Made of high-quality aluminum, it has an adjustable 360° rotation angle - so we can take photos in different angles.

Easy installation

The accessory is lightweight and compact, easy to store, mount and dismount. The device stands out not only for its excellent quality, but also for its versatility, which makes it worthy of recommendation.

Small and Portable

The mount has a foldable design, which makes it very easy to carry and store. It is also equipped with a standard ¼" thread , making it compatible with various camera equipment, phones, etc.

Large suction cup

Thanks to the flexible and thick suction cup with exceptional suction force, the mount can be used on smooth surfaces even with very intense vibrations. The suction cup perfectly absorbs shocks and can stay on flat surfaces for a very long time even under heavy loads.
