

Solar camping lamp Superfire T26-S, 500lm

Solar camping lamp Superfire T26-S, 500lm

Ref: 6974760350726

Superfire T26-S camping lamp

Going camping or fishing? Provide yourself with a reliable source of light! The Superfire T26-S camping lamp is distinguished by a brightness of up to 500lm and allows you to choose from 3 light modes. Its working time is about 6.5 hours, and thanks to its lightweight, portable design you can always have it at hand. What's more, the device charges in 2 ways - using a micro USB cable or the built-in solar panel.

Reliable light source - 3 modes to choose from

The lamp uses up to 36 energy-saving and environmentally friendly light sources, so it can provide bright, vision-safe light. Its power reaches 18W, and its brightness is up to 500lm. There are also 3 lighting modes at your disposal - High Light, Low Light and Strobe. So you can easily adjust the device's performance to your needs!

Long working time - 2 ways of charging

Have confidence that your lamp will not refuse to serve you at the least opportune moment. The T26-S is equipped with a powerful 4800mAh battery, which provides a working time of up to 6.5 hours. You can charge it in 2 ways - using a micro USB cable or using green solar energy - the device has a small photovoltaic panel built in.

Thoughtful design

The T26-S camping lamp is extremely lightweight and portable - it can accompany you almost anywhere. It won't take up too much space in your backpack or travel bag! It will be perfect for camping and more. Its additional advantage is a special hook, with which you can, for example, hang it on a tree or in a tent. The device also has a built-in display that will provide you with information about its charging status.

Multiple uses

Opt for versatile solutions. The lamp is distinguished by its 360° angle of illumination, making it perfect for a variety of applications. If you want, take it on a camping or fishing trip, you will also successfully use it in emergency situations, for example, when you run out of power or need a minor car repair. The device can also serve as a night light. With its help you can also illuminate the garden.
